

**From Geneva, Lyon, Paris
at Hollywood**

**Charles-Émile Sauty aka "Professor Rex", my father
(1900 - 1967)**

The moving testimony of his daughter **Josymone Sauty**, holder of many French-Swiss and international awards, fills an inexplicable gap. The biography of Charles-Émile Sauty offers a world of varied attractions, including French-speaking Switzerland and France, which can be proud of themselves.

Author, journalist, literary critic, publicist, music composer and lyricist, Charles-Émile Sauty owes his credentials to the pioneering role he has played in the history of Swiss cinema. He was also a master magician, a specialist in the history of magic, whose **career can be compared to that of Méliès**. He received the title of *Commander of the Mérite artistique sociale*, in France.

This biography, full of an unprecedented and abundant **ICONOGRAPHY**, is a **precious testimony to the history of cinema and magic, as well as a contribution to the history of Geneva and France in the twentieth century**.

Josymone Sauty shares his life between Geneva and Saint-Raphaël, and his father's time, a corner of Chablais, Haute Savoie. In addition the author is happy to present the mythical store of Gaité, created by his father, and revived by Ms. Monique Manoukian, the current owner.
